

SERTIS

ACCESS CONTROLLED

Flexible Access Control.

Fixed or mobile protection, wherever you need it.

TRELLIDOR®

THE ULTIMATE CRIME BARRIER

Custom-made security solutions that protect people and property.

SERTIS PRODUCT RANGE

A range of retractable, open-trellis barriers that restrict access while maintaining visibility and airflow. Choose a permanent, lockable wall-mounted barrier or a freestanding barrier you can move wherever it is needed.

Sertis Access Barrier

Fixed, lockable access control for secure environments.

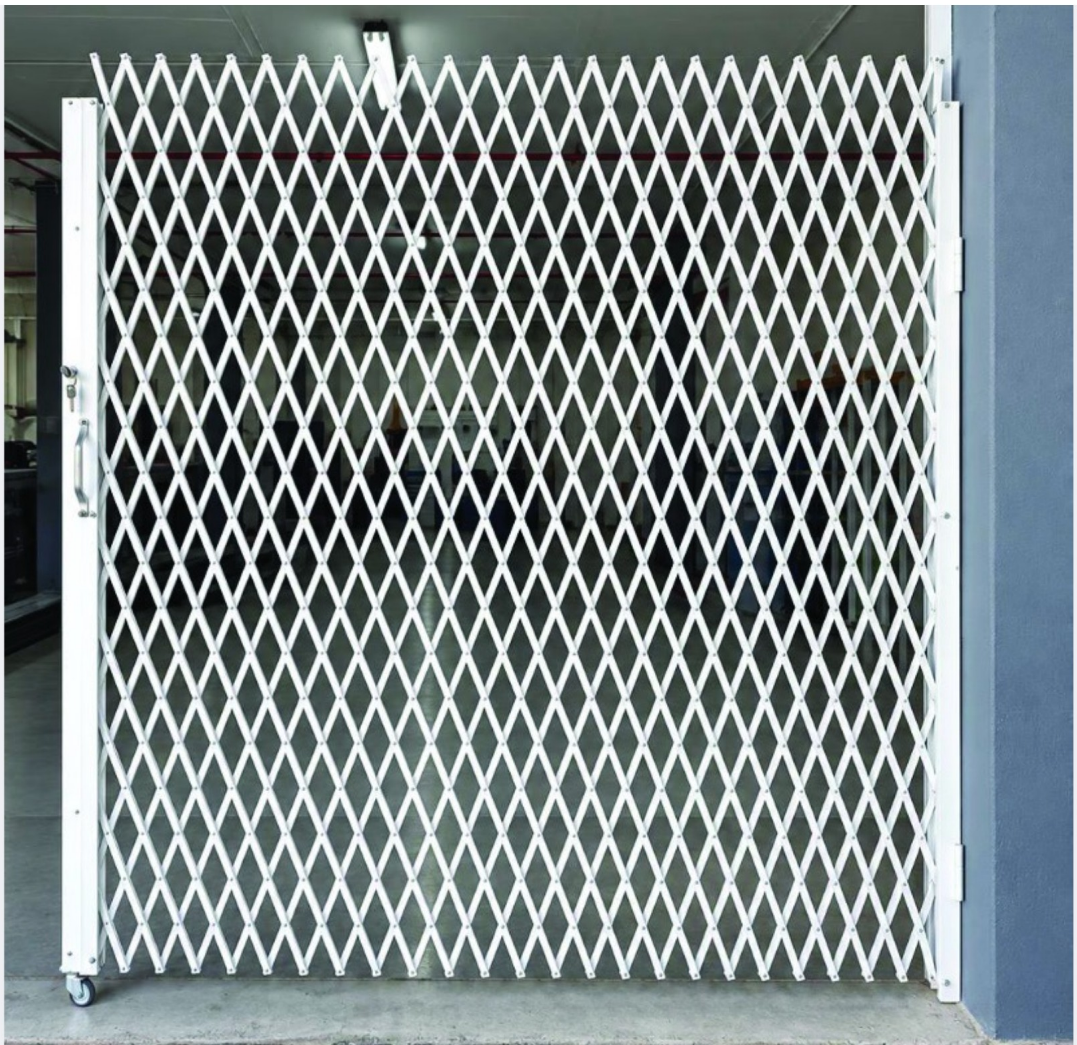
The Sertis Access Barrier is a robust, wall-mounted access control solution designed to secure designated openings while maintaining visibility and airflow. Ideal for commercial, industrial and retail environments, it provides reliable access restriction with a secure locking system and retractable design. When access is required, the barrier folds away neatly and can swing aside, making it a practical solution for areas that require both security and operational flexibility.

1 **Secure Deadlock**
Trellidor's standard grille deadlock, with 1 or 2 locking points depending on size.

2 **Permanent Wall Mounting**
A permanent solution, securely mounted to the wall on one side.

3 **Visibility & Airflow**
Open trellis design keeps secured areas visible and ventilated.

4 **Folds Away & Swings Aside**
Retracts neatly and swings aside when access is required.



Sertis Mobile Barrier

Flexible access control. Wherever you need it.

The Sertis Mobile Barrier is a freestanding, retractable access control solution designed to create temporary boundaries quickly and effectively. Ideal for warehouses, retail environments, maintenance areas, events and public spaces, it provides a highly visible access restriction without the need for permanent installation. Easy to deploy, reposition and store, the Mobile Barrier adapts to changing operational requirements while maintaining a professional appearance.

Why choose the Sertis Mobile Barrier

1 No Permanent Installation
Freestanding design gives instant, temporary access control.

2 Easy to Reposition
Swivel castor wheels let you move the barrier smoothly wherever it is needed.

3 Compact Storage
Retracts neatly for compact storage when not in use.

4 Indoor & Outdoor Use
Robust, corrosion-resistant galvanised steel with a professional powder-coated finish.

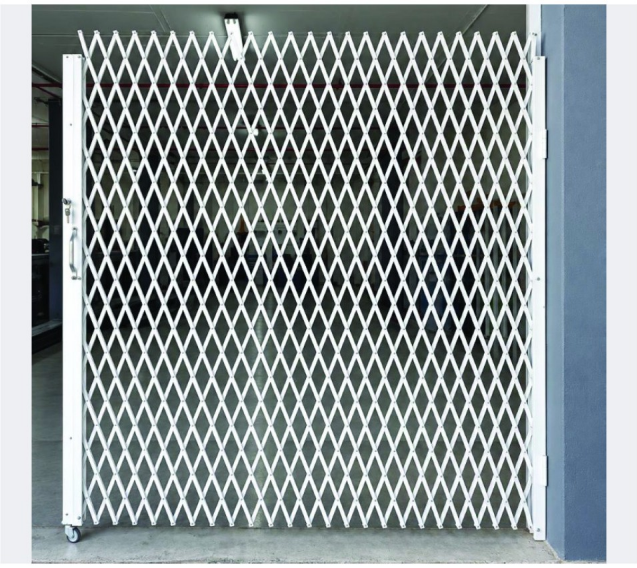
5 Link & Lock Together
Units link together and lock with Trellidor's standard grille lock (1 or 2 locking points, depending on size) to secure wider openings.

6 Locks in Position
Lockable castor wheels hold each barrier securely in place.

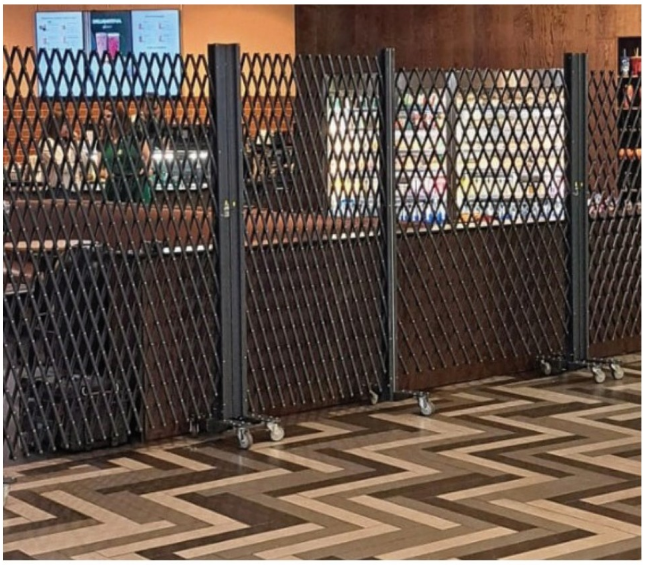
STANDARD FEATURES THAT SET THE SERTIS RANGE APART

- Durable steel construction in corrosion-resistant galvanised steel.
- Protective, professional powder-coated finish.
- Open trellis design for clear visibility and airflow through secured areas.
- Retractable design that folds away compactly when access is needed.
- Smooth, easy operation.
- Suitable for commercial, industrial and retail environments.

AVAILABLE CONFIGURATIONS



ACCESS BARRIER
WALL-MOUNTED, FIXED ON ONE SIDE



MOBILE BARRIER
FREESTANDING · UNITS LINK AND LOCK TOGETHER

*These configurations are examples used for illustrative purposes only. The final design of each product will be dictated by site limitations, customer specifications, and location restrictions.

ALL SIZES IN MM	MIN (W)	MAX (W)	FULL HEIGHT STD / STACKED	HALF HEIGHT STD / STACKED
ACCESS BARRIER	580	1 990	1 920 / 2 115	940 / 1 120

LOCKING	Grille deadlock, 1 or 2 locking points	Grille lock between units, 1 or 2 points; lockable castors
RETRACTABLE	Yes – folds away and swings aside	Yes – for compact storage
MATERIAL	Galvanised steel	Galvanised steel
FINISH	Powder coated	Powder coated
VISIBILITY & AIRFLOW	Open trellis design	Open trellis design
APPLICATIONS	Commercial, industrial & retail	Indoor & outdoor

COLOURS

All Trellidor products come in 8 standard colours. Special colours are available on request, allowing you to choose a colour to best suit your decor or your corporate colours.

The Trellidor powder coating system includes a pre-treatment process that enhances our products' corrosion and UV resistance. The powder coating is ideal for coastal and inland conditions and increases the lifespan of the barrier by retaining its quality finish.

*Actual colours may vary slightly due to device settings, differences in printing substrates, or personal perceptions of colour.
